Medical Illness Policy: One of the advantages to boarding your pet at an animal hospital is that veterinary attention is readily available should the need arise. Any pet experiencing a change in routine may exhibit symptoms of stress. If your pet becomes ill or develops any medical conditions such as: diarrhea, skin infections, ear infections, eye infections, etc. an exam and treatments will be performed at the doctor's discretion. We will make every attempt to contact you, but in the event you are unavailable, treatment will be provided at owner's expense. We do not want your pet to come home sick or untreated.

Pacific Animal Hospital is not a 24-hour facility. Pets are left unsupervised during non-business hours. Boarding check-in and check-out is during normal business hours only. If any pet is not picked up within 14 calendar days after the day the pet is scheduled for pick up, that pet shall be deemed abandoned. Pacific Animal Hospital will attempt to place the pet with a new owner, according to CA Civil Code Section 1834.5, Abandoned Animals.

We know that pets have special needs, and we have our Dr.'s and staff ready to care for your pets. Pacific Animal Hospital ~~is~~ pride in our modern, clean boarding facility where your pet will safely and comfortably stay while you are away.
